The wide possibility with
wireless connection

CD/DVD Streaming

AM 8:00

How to entertain your kids during a long road trip?
Through wireless connection, they can enjoy their programs on a tablet
by streaming from the SE-208BW.

Smart Backup

AM 10:00

With Samsung's application software,
you can burn a disc quickly.

File Manager

PM 2:00

Did you forget to make copies for your client?
Just connect a USB or HDD to the media hub to become a
small network for sharing documents.

DLNA (Digital Living Network Alliance)

PM 5:00

Watch your content on TV, smart phone or a tablet PC through
a wireless connection using the SE-208BW.
Streaming content was never easier.

NAS (Network Attached Storage)

PM 7:00

Has your smart phone reached capacity? Here is the solution. Back up your photos through the SE-208BW. Just connect to the SMARTHUB using the smart backup applications and take pictures and video. Capacity is no longer an issue.
